

Certification asbestos free and forbidden substances

With reference to the declarations and guarantees provided for under the ASBESTOS FREE AND FORBIDDEN SUBSTANCES Clause of the present Order, the Supplier certifies with its signature that the processes that are necessary and/or functional to comply with all the obligations that are provided in the Order itself, including its own production process and those of its sub-suppliers, are performed according to procedures that allow for their control, the verification of the origin of the materials used and further guarantee that:

- all materials supplied and/or used to comply with all the obligations related to and/or connected with the Order are totally free from substances and preparations forbidden by applicable laws and regulations, by MEPC 62/24 Annex 3 norms and by SOLAS Regulation II-1/3-5 such as asbestos, polychlorinated biphenyls (PCB), ozone-depleting substances (ODS);
- all "ready to use" materials, supplied and/or employed to comply with all the obligations related to and/or connected with the Order, are not classified as mutagenic and/or carcinogenic, hazard statements H340 (ex R46; ex R47), H350 (ex R45), H350i (ex R49).
