

Multi Marine Kit

Portable measuring equipment for marine applications

Vimex has been a producer of portable measuring equipment for more than 25 years. By utilising our experience and ingenuity we are able to offer a total solution with a wide range of measuring instruments for all your needs on-board the vessel.

Operational safety depends on continuous monitoring and accurate measurements of crucial machinery and instrumentation on-board the vessel.

Our Multi Marine Kit provides high precision and reliable meters suitable for easy recording of essential process variables. As it is required that ship sensors at all times display correctly, the kit also includes relevant test and calibration tools.

The Multi Marine Kit is designed to withstand the harsh marine

environment without reducing the life-time of the singular tools.

Wherever your vessel is located, Vimex has an extensive network

of supply and service facilities to meet your needs. We are represented in major ports in Norway, as well as in Dubai, Singapore and Rotterdam.

If you can't measure it, you can't control it!

Multi Marine Kit description

Our Multi Marine Kit includes a selection of essential and commonly used instruments. The standard kit includes temperature, pressure and loop calibrators, as well as a multimeter and an IR thermometer.

The standard Multi Marine Kit comes with a compact and rugged transportation case.

A wide range of other instruments may also be supplied, such as alco and drug meters, distance

meters, IR cameras, noise meters, pressure and temperature gauges, gas detectors, ultrasonic thickness meters, hygrometers, dust detectors, ampere meters, tank sounding radars, water analysers, leak detectors and so on.

Standard kit specifications

- Vimex TC-600 temperature calibrator
- Vimex DPC-20 pressure calibrator, 0-20 bar, pneumatic
- Vimex DPC-700 pressure calibrator, 0-700 bar, hydraulic
- Multifunction loop calibrator
- RMS multimeter, including temperature and frequency
- IR thermometer
- Inserts and insert tools
- Cleaning tools
- Quick connectors
- Test hose kit
- Adaptor sets (BSP and NPT)
- Power cables, test leads etc.
- Transportation case
